

BAR AMIGO

Reviews

"Went to Bar Amigo when working on business in the area in early July 2008 and loved it, they did a special menu in the week which was lovely. Will be visiting again in early December when in the area on business again!"

"I went to Bar Amigo last weekend 26/07/08 and had a wonderful time there. The food was superb and the cocktails were to die for. The atmosphere was great. It was an all round brilliant night out and would recommend it to all. 10/10"

"I absolutely love Mexican food so I was delighted when Bar Amigo opened up in walking distance. That is, I was delighted until I actually went there. The food isn't bad; it's just not very good either. If the prices were lower, it'd be fine but they charge above average prices for the area and serve food that, while perfectly edible, is comparable to a supermarket instant meal. It's also a very small restaurant that could be kindly described as "cosy" or less kindly as "tiny and cramped". The one redeeming feature is that the service is prompt and friendly."

"This place is great for Mexican food. There is also a cocktail bar on the upper level great before you have your meal.

The fajitas are too die for along with great friendly customer service.

Just don't wear heels as the stairs are very steep!"

"This has to be one of my favorite restaurants and a must for anyone who likes Mexican food. It is upstairs, in a really old historic building. The beams inside are genuine, and it has a really cosy atmosphere. I have eaten here on numerous occasions, the food is consistently good, and the staff very friendly. Prices are good too. I really liked their stuffed chilli peppers, which is a starter. They are stuffed with cream cheese, and served with a spicy jam. They are yummy; my mouth is watering just thinking about them. Hmm, think I will have to book a table!!!!"
